Update:

The IPY saw the establishment of the International Network for Circumpolar Research (INCHR) (Eol #516). This is a voluntary network of individual researchers, research trainees, and supporters of research based in academic research centers, Indigenous people's organizations, regional health authorities, scientific/professional associations, and government agencies, who share the goal of improving the health of the residents of the circumpolar regions through international cooperation in scientific research (www.inchr.com).
