Series description

This series consists of a number of photographic prints on subjects including Alaska history, geography, climate, and fauna. Most of the photos are duplicates obtained from other organizations and repositories.

Retention

The Center has asked the Archives to retain these materials permanently.

Arrangement

The photographs are grouped by subject.

Processing information

This series was described by Arlene Schmuland in 2009.

Restrictions

Most of the materials in this collection are not to be duplicated without the permission of the photographer or the source office.
