Dear Jellybean:

Two little boys who live in the country have been avid listeners of your program all winter. As one of many mothers in the Anchorage area I have wanted to drop you a card telling you what a help your program is in keeping children entertained and also the time of day of your program is just right for the child attending afternoon shifts in school. Don and Ken wanted me to write you telling you how much they like your program and they hope you will be well soon.

Very truly yours,
