Digital book access

Keep doing what they are doing. I want to say they should open up earlier on Saturdays and Sundays, but their 10am opening lets me sleep in. I like going to the library as there are places to work. I feel safer now with badge-only access.

Provide instruction sessions for teacher assistants.

Access to digital books has been extremely helpful. However, the digital collection needs to expand greatly.

It provided a place with internet that I could study.

Front desk staff helped me get set up with laptop to borrow; walked through startup to make sure everything worked.

ILL helped me get a rare textbook in time for class while I waited for online order to arrive.

Every time I have gone to the library everyone is extremely helpful and kind. I appreciate how large the building is and how much space is there. I like the study rooms and how quiet it is.

I was able to get a quick response when trying to track down the correct edition of a textbook for class. The University libraries did not have a copy but I was able to get a fast response and complete my search online.

OS3 - Do you have any additional comments about the Consortium Library, including any areas for improvement?

Do you have any additional comments about the Consortium Library, including any areas for improvement?

Please expand the digital book collections. Access to digital book would really improve accessibility to books and information without having to drive to the library and we can read them on our devices.

End the mask requirement

Wider access to online journal resources, e.g., some Wiley journals are not accessible with UAA credentials.

I would like to use the library in person but the hours are limited. I don't get off until 6 the days I work and I wouldn't have any time to study.

none

Not that I can think of. Keep up the great work.

Please do not make me jump through hoops to reserve a study room if you know it is empty and I am at the counter.

not at this time, thx

I have not been to the library in-person yet, but the library's online database has been invaluable to my education.

As I stated above, I'm a UAA student, but I do not live in Anchorage (Fairbanks). Some of these questions assume that all students live nearby to the library. One thing that still seems to be problematic between UAA and UAF is the lack of those two entities ability to work together so that students who live in one location but attend in another location can utilize in-person library resources where they live.

Need to add many more study rooms or allow for more time than 3 hours for a room. It is a break from the terrible mask mandate you have going on. Why do I have to wear a mask if I am sitting in the library and no one can sit near me.

It would be nice if we could access the library in the intersessions without being enrolled for the next semester.

It's not useful when you're required to wear a mask. Most students would rather study at home or a coffee shop. We do not like wearing them especially if sitting for long hours.

Improve the website. Links to inerlibrary loan and logging off are too small.
