

Certbot made these changes to ssl.conf

Commented out the old certificates

```
# SSLCertificateFile /etc/httpd/conf/ssl/consortiumlibrary_org.crt  
# SSLCertificateKeyFile /etc/httpd/conf/ssl/onsortiumlibrary_org.key  
# SSLCertificateChainFile /etc/httpd/conf/ssl/CertCA.crt
```

Added lines for new certificates

```
SSLCertificateFile /etc/letsencrypt/live/consortiumlibrary.org/cert.pem  
SSLCertificateKeyFile /etc/letsencrypt/live/consortiumlibrary.org/privkey.pem  
SSLCertificateChainFile /etc/letsencrypt/live/consortiumlibrary.org/chain.pem
```

Added server domain names

```
ServerName consortiumlibrary.org  
ServerAlias www.consortiumlibrary.org
```
